# As the world changes, so does Roca

Roca began life as a family business manufacturing cast iron radiators at a factory in Gavà, near Barcelona in 1917.

Over the years, the portfolio gradually expanded and by 1929, Roca entered the bathroom environment for the first time.

With an attentive focus to social changes, Roca has since been pioneering when

tackling issues surrounding sustainability, design and technology, and remains at the forefront of these innovations today.

Today, Roca reaches over 170 countries, supplied by 76 production plants with more than 20,000 employees worldwide.

After nearly one hundred years, Roca is still proud to call itself a family business.

# **Intelligence. Fresh thinking. Smart design.**

We put people at the heart of what we do to transform the bathroom space. Every Roca product combines functionality with the best European design, resulting in a range of inspiring bathrooms that harness tomorrow's technology. Sustainable, beautiful, innovative, good value – these are all the hallmarks of a Roca bathroom.

These are hallmarks of your Roca bathroom.

## Innovative WCs

# W+W

The iconic W+W perfectly combines two bathroom essentials in one sustainable, elegant concept. In a harmony of innovation and technology, the pioneering system filters, treats and stores the basin water so it can be reused to flush the toilet, achieving substantial water savings.

## In-Tank

In-Tank has revolutionised the bathroom. For the very first time the cistern and flush system are integrated into the WC itself.

With the installation of either a cistern or flush plate no longer required, this innovation marks the start of a new era in bathrooms.

**Inspira Collection**

**One design DNA,  
so many possibilities**

Inspira

“My surroundings  
reflect who I am.”

Frances, Designer

# “I can show my appreciation for beauty and balance.”

“I love having a bathroom that reflects who I am as an individual.

Being able to create an uplifting, beautiful space of my own is inspiring. I have the choice to reflect different parts of my personality and show what’s important to me. We are complex beings and this can be reflected through our design decisions.”

**Frances, Designer**

# Possibility born from simplicity

## **Fineceramic®**

Distinctive, resilient and exclusive to Roca, Inspira's high-quality Fineceramic® basin material is 40% lighter and 30% stronger than conventional porcelain.

Highly appealing in their simplicity, these basins embody our innovative approach to design and functionality.

Choose from Round, Soft or Square, or combine designs to create your bathroom space, your way.

“There’s great  
joy in symmetry.  
Clean lines and  
balance elevate  
the quality of my  
environment.”

“There is no hiding when design is simple and minimalist; it’s when everything is stripped back that quality speaks for itself. Design is about much more than clean lines and perfect forms, however; great design has to perform too.

When technology and form come together to reach new heights, that’s when I feel really inspired.”

**Hugo, Senior Producer**

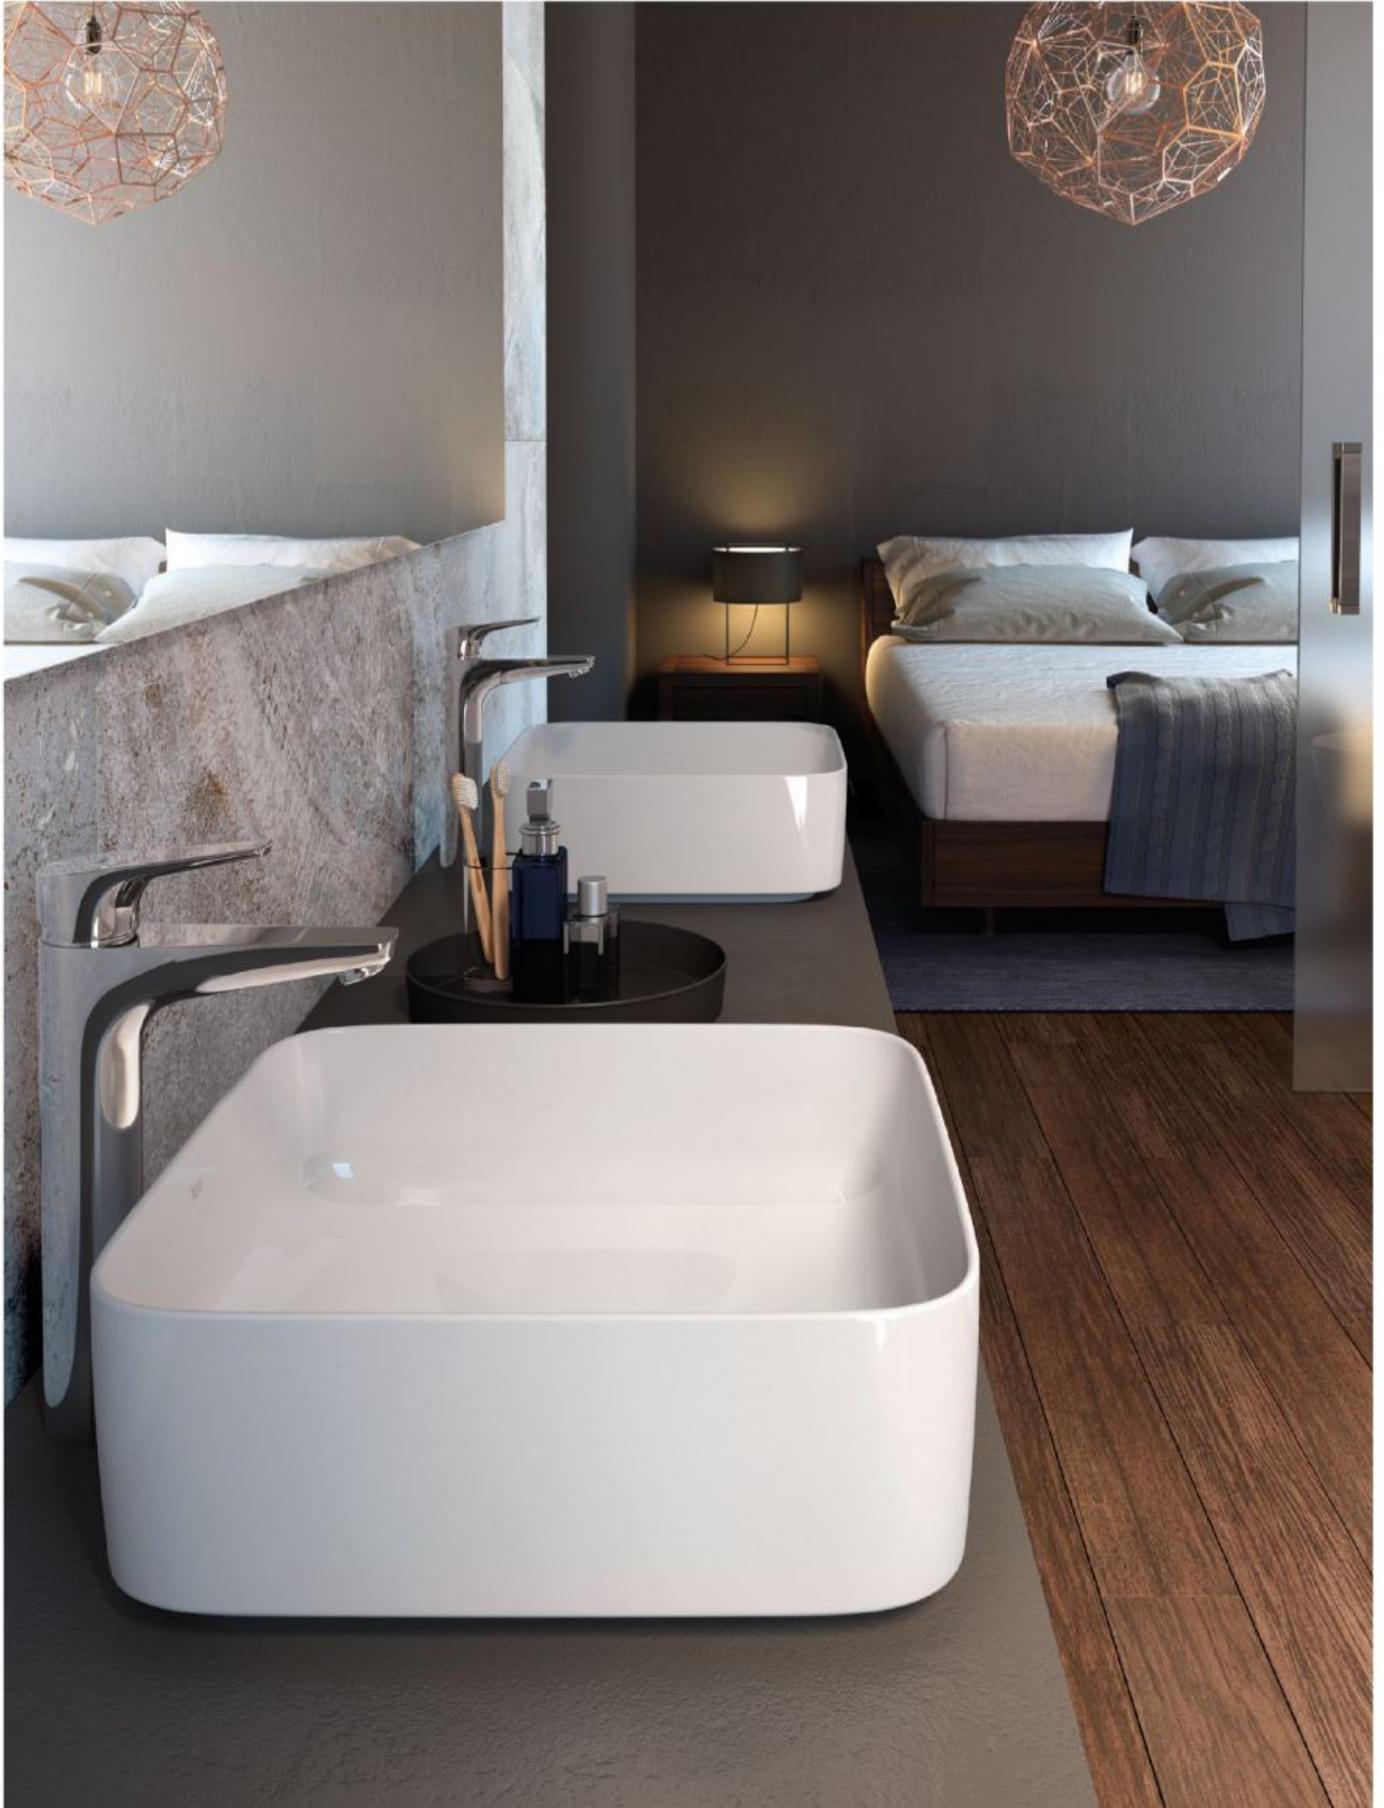

## **Rimless technology, Timeless design**

Our new generation of rimless toilets represent the best in innovation and technology. Low water consumption and optimum flushing performance complement the hygienic benefits of smooth, rim-free design.

“This is where I  
can disconnect  
from the world.”

“Having somewhere to retreat to is important to me.

It’s where I go to remind myself who I am and what I care about. I’m a visual person; shapes and forms interest me and enliven the spaces I inhabit.

Everyone should have a space they can go to that rejuvenates them, and inspires them.”

**David, Digital Developer**

# Your style, your bathroom

Uncomplicated, high-quality bathroom design drives the Inspira furniture range. The two-drawer base units with soft and self-close drawers fit all Inspira basins for a variety of simple, elegant looks.

## Element Collection

“Great things can  
come from simplicity  
– I like that.”

“I find reassurance in strong shapes and bold forms. Places that convey energy and character revitalise me. Strong design has a powerful impact on my wellbeing and how I relate to my surroundings. When I inhabit a positive space, I feel energised and inspired. It brings out the best in me.”

**Amanda, Architect**

**Minimal, strong  
and cubic**

**Element**

# Geometric and pure

Element's distinct and radical design and its simple, strong lines allow it to co-exist beautifully with the different stylistic registers found in contemporary interiors.

# Khroma Collection

“Everything  
in life should  
be a sensory  
experience.”

“I want to experience life in all its intensity and my surroundings play a big part in that.

Appealing colours, shapes and forms allow me to show the world who I am and enrich everyday experiences. It's good to express yourself, why wouldn't you want to stand out from the crowd?”

**Joseph, Actor**

# Expressive and elegant

Complementary forms and finishes provide an elegant, sensory experience in the Khroma Collection. The blend of bold colour schemes and fluid, elegant design make this collection the perfect way to express your own creativity.

Choose from a selection of basin and WC options, which include soft textured seat and cistern covers, to personalise your space and add colour for a laid-back feel in the bathroom.

## Happening Collection

“You achieve true elegance by stripping things back to their essence.”

“It’s important to create a space where you can reflect and unwind – that’s what brings new perspectives.

Simplicity allows us to achieve clarity – when our environment is stripped back we can appreciate its true nature. Why should functionality sacrifice style? When something works well and looks beautiful, that’s very pleasing.”

**Cristana, Lecturer**

# Beauty and simplicity combined

The Happening Collection is the epitome of uncomplicated, functional and elegant design. Conceived to make the most of its environment, the collection offers a new perspective on classical bathroom elements. The result? Timeless, beautiful pieces that create a restful space.

**New Classical Collection**

“My bathroom space  
is timeless; it’s where I  
leave the world behind.”

“For me, the bathroom is where I can relax and shut the world out.

It’s where time seems to stand still and the pressures of modern life simply melt away. The charm of old-world elegance really appeals to me. I love timeless design, the classical lines and refined forms. I don’t think that will ever go out of style.”

**Lex, Human Resources Manager**

# **Peaceful, serene, classic**

Elegance and refinement are the hallmarks of the New Classical Collection, which hints at old-fashioned opulence with its curving forms. The timeless proportions and lines ensure it instils a sense of peace and serenity in any bathroom space. A true example of timeless design.

## Hall Collection

“I meet my  
challenges with  
future-focused  
thinking.”

“I don't compromise on aesthetics; creativity is  
a big part of who I am.

I love the challenge of making the most of my  
space. That's what leads to innovation, it's what  
makes us all strive to find better ways of doing  
things. Creativity is all about problem solving;  
whatever the size of the space you have to work  
with, it can still perfectly reflect who you are.”

**Adam, Photographer**

A design that adapts to complex and challenging spaces, and faces up to the demands imposed by modern-day interiors, achieving maximum adaptability.

## Aire Collection

# “Life’s complex so why not simplify things?”

“The bathroom is one of the rooms in our house  
used by the whole family.

For that reason it needs to be an uncomplicated  
space that combines wellbeing and functionality.  
We’re often out and about so we love that the space  
fits perfectly with our lifestyle. It’s stylish, relaxed  
and welcoming, just what we need.”

**Sandy and Jason, Café Owners**

## Softness and simplicity

Strong lines create a sense of welcome in the Aire Collection. The simple, striking design is beautifully functional, infusing a sense of warmth in the bathroom. Its practical, appealing nature makes Aire a favourite for a relaxed, comfortable space.

# Internationally renowned

Working with leading architects, Roca is part of some of the most prestigious buildings across the world. Creating unique and beautiful bathroom spaces for the most modern hotels, to sympathetic classical renovations in emblematic landmarks, Roca relentlessly works with designers and architects to achieve their vision.

# Roca Galleries

Built with the principles of design, innovation and sustainability in mind, the Roca Galleries (located in London, Shanghai, Barcelona, Madrid, and Lisbon) are not just physical locations, but rather a concept that conveys the forward-thinking vision of Roca to both the public and professionals who share an interest in the bathroom. The Roca Galleries provide an avant-garde setting in which to view some of Roca's best displays as well as serving as an arena for inspiration; drawing architects, interior designers and consumers from around the globe.

Designed by Zaha Hadid and inspired by the phases and states of water, the award-winning Roca London Gallery hosts regular free cultural exhibitions, events and professional forums. The fluid forms of the interior are complemented by semi-enclosed, cave-like spaces featuring the latest bathroom products and innovations.
