

VANITY BATHROOM FURNITURE

VANITY FURNITURE

Welcome to the latest brochure showcasing the Calypso brand of Vanity bathroom furniture. For over 20 years we have been creating beautiful bathrooms with a perfect blend of good design, functionality and style. A heritage to be proud of!

We trust you will be inspired by the content within these pages, which with the choice of styles, finishes and ideas displayed, will enable you to create your own dream bathroom which will be yours to enjoy and relax in for many years to come.

CALYPSO • VANITY & MODULAR FINISHES

The finishes reproduced in this brochure are subject to screen and print variations - Please use our free sample service for more exact colour matching. Calypso Vanity & Modular units are all supplied ready assembled with the exception of Modena, which has the carcasses and fascias packed separately. All stocked products are dispatched within 72 hours.

MODENA FURNITURE • PRODUCT NOTES

- All carcasses are pre drilled for hinges and shelf adjustment
- All units are pre-constructed
- Carcasses are made from 18mm Melamine faced chipboard for consistency with door thickness
- All doors and drawers are soft close as standard
- Basin Units have a 50mm service space
- Wood based furniture is not suitable for installation in wet rooms
- Vanity Furniture should only be installed within a well ventilated bathroom environment
- 5 Year guarantee (T&Cs apply).

Bathroom designs for the more compact cloakrooms and en-suites.

Calypstone is an acrylic based product with all the practicalities of a hard wood, meaning it can be cut using common woodworking tools. A jigsaw with a good quality blade is ideal for initial cuts and should always be approached from the front profile of the worktop, ensure any off cuts are well supported.

If the cut is to be a show end, glance the cut with a sharp bladed router. Then sand a 3mm top and bottom radius along the length of the show end. Finish with the gentle application of mildly abrasive rubbing compound and finally polish. All components required are available in the **Calypstone Repair Kit (7470.04)** below.

Silicone can be used to fix Calypstone to the base units. If wanting to join two pieces of Calypstone, run a bead of silicone along the joint edge of the first piece and push the second piece firmly up to the first piece to create the joint. You should aim to squeeze as much silicone out of the joint as possible, the more you do the less visible the final joint will be. Any excess silicone then needs to be removed.

CALYPSTONE MAINTENANCE KIT

MAINTENANCE KIT

7470.03£52.80

Used on Calypstone products for general maintenance and polishing.

KIT CONTAINS:
Velcro Backing Pad (with drill attachment)
50ml Acrylic Cutting Compound A
50ml Acrylic Polishing Compound B
2 x Felt Polishing Pads

Micro Fibre Cloth

IP Rating 1st Digit			IP Rating 2nd Digit		
	Object Size	Protected against		Protected against	Tested for
0	-	No protection.	0	-	No protection
1	>50 mm	Protection against any large surface area of the body but not deliberate tampering or force.	1	Dripping water	Dripping water – no damaging effect when tested against vertical falling water drops.
2	>12.5 mm	Fingers or similar sized tools and objects.	2	Dripping water when tilted up to 15°	Vertically dripping water has no damaging effect when the light enclosure is tilted at an angle up to 15° from its usual position.
3	>2.5 mm	Thick wires, tools and similar-sized foreign bodies.	3	Spraying water	Water falling as a spray at any angle up to 60° has no damaging effect.
4	>1 mm	Most wires, screws, etc.	4	Splashing water	Water splashing against light enclosure from any direction has no damaging effect.
5	Dust protected	Protected against dust, allowing limited ingress. (no harmful deposit)	5	Water jets	Water projected by a nozzle (6.3mm) against light enclosure from any direction shall have no damaging effect.
6	Dust tight	Dust tight. No ingress of dust.	6	Powerful water jets	Water projected in powerful jets (12.5mm nozzle) against the light enclosure from any direction has no damaging effect.
			7	Immersion up to 1m	Water won't infiltrate even when light enclosure is immersed in water up to 1m in depth. Duration of upto 30 minuets.
			8	Immersion beyond 1m	The equipment is suitable for continuous immersion in water under. Conditions specified by the manufacturer.

IP 6 7
IP67. The item is protected from dust and capable of withstanding water immersion upto 1 meter for 30 minutes.

- ZONE 0** Covers the areas inside the bath or shower tray. If you decide to illuminate this area the fittings must be low voltage and must have a minimum rating of IP67 making them immersion proof.

ZONE 1 Incorporates the area directly above the bath or shower tray to a height of 2.25m from the floor. A light with a minimum IP44 rating is required for this area. If the light uses a 240V supply, a 30ma RCD (residual current device) must be used to protect the circuit in this zone.
- ZONE 2** Covers the area 0.6M outside the bath's perimeter and to a height of 2.25M from the floor. As with Zone 1, a minimum IP44 rating is required for this area.

ZONE 3 Outside zones cover areas which fall outside of zones 0,1 and 2 and are well away from any contact with water. No IP ratings are required for light fittings in this area.

Installation must be made in accordance with the current IEE wiring regulations and relevant building regulations. Calypso recommends that all electrical bathroom products should only be fitted by a suitably qualified Part P registered electrician.

RESPONSIBLE SOURCING SOFT CLOSE

Packaging is sourced through FSC accredited mills, and all catalogues are manufactured from sustainable and audited sources. We invest heavily in modern and eco friendly vehicles throughout our delivery fleet to ensure we are operating with a minimal carbon footprint.

DELIVERY SERVICE

With the majority of deliveries being undertaken on our own vehicles and our 99% stock guarantee, our aim is to offer the shortest Order-to-Delivery time in the industry. With the back-up support of couriers, every exigency can be covered.

ENVIRONMENTAL

Throughout the company's processes from initial contact to sales, production, delivery and after-sales, we aim to consider the environment at every step. We never overlook the opportunity to save paper, recycle materials and re-use components and parts in a bid to further cut our carbon footprint.

Boxes designed and manufactured for us use FSC accredited paper mills which source from sustainable forestry. In addition to this, the liners and corrugated fluting in our boxes are made from recycled materials and when finished with will again be fed back in to the recycling system.

GREEN MEASURES

Our commitment to minimise our environmental impact starts at our own purpose built office and warehouse facilities where 48 solar panels have been installed to use natural sources of energy to provide power for heating and other services within the building. Light sensors are used to minimise light pollution, and the window and insulation properties designed to the highest standards in order to reduce heat loss.

Recycling has a high priority at our distribution center. From wood and plastics through to paper and general waste we aim to maintain a process that is as environmentally friendly as possible. Measures include the use of an in-house bailing machine to compress and wrap all cardboard ready for recycling.

We are committed to ensure that all products are obtained from reliable and responsible sources. Our purchasing department is unable to continue trade with companies who cannot fulfil our environmental and sourcing questionnaires. Certificates are also held as proof from all supply sources.

This catalogue has also been produced via carefully chosen companies who pride themselves on minimising their environmental impact. Printed media for Woodstock Trading Company is consistently sourced from such companies.

GUARANTEE

Our skilled development team work fervently to create new and exciting furniture for the UK market. Quality at every point with 18mm drilled and pin pricked rigid carcasses - accuracy in everything we do. Combined with long guarantees we carry an extensive selection of replacement parts to service customers in the years to come.

HELP & ADVICE

We have dedicated departments for every step of the way. You should enjoy every moment of your new Calypso bathroom. Can't decide on a finish? - We have a free sample service to provide you with a real piece of Calypso Furniture. We are only a phone call away - 01432 367367.

IMPORTANT NOTES

We take pride in what we do and we like our products to arrive with you in perfect condition. Unfortunately, accidents can happen though, so it is important when ordering and booking installations, that sufficient time is allowed between product delivery date and installation date, for the checking of goods and if required, the re-delivery of any rejected or damaged items.

All stocked products are dispatched within 72 hours of ordering.

All our vanity and modular units are delivered pre-assembled with the exception of the Modena, which have the carcasses supplied ready assembled, with door and fascia panels packed separately for fitting once carcasses are installed to help avoid damage. Door and drawer fronts are supplied undrilled for handles to give maximum flexibility and choice.

All our concealed WC cisterns are suitable for front access servicing. If other manufacturer's concealed cisterns are used, service access may become a problem. Prices in this catalogue include VAT at 20%.

PRODUCT NOTES & SPECIFICATIONS

Please note all images within the pricing sections are CAD generated images and may not reflect the unit exactly. We strongly recommend that any questions relating to detail of any units are asked prior to ordering.

Printed colours and woodgrains are subject to print and screen variations and are for illustration purposes only.

Please call sales on 01432 367 367 to request a real sample for exact colour matching prior to ordering.

Cast Basins – All Calypso cast basins are made from a mineral powder/polyester resin. The surface is protected by gelcoat which is at least 0.5mm in thickness. Clean and care for your top with a normal liquid detergent (do not use detergents containing abrasives). Buff with a good quality polish to keep your cast top in tip-top condition.

Postformed Laminate Worktops – Laminated on a 28mm chipboard core, all worktops are supplied with a length of edging for re-sealing when cut. (Additional edging strips are available on request, priced per metre).

RETURNS POLICY

Any damaged or unwanted items must be reported within 28 days. Any items ordered and delivered in good faith but no longer required will be subject to a 25% handling and re-stocking charge.

Non-required items can only be accepted for return if:

- They are returned in original packaging.
- They have not been fitted in any way (this would include legs fitted onto carcasses).
- They are in re-saleable condition.

Credit will be given once the goods are received back, inspected and signed off.

Any good under this policy should be returned to the retailer that they were purchased from.

Credit Approval or Refusal:

Once returned goods are received and inspected as per terms above, credit will either be approved or refused. If refused, a credit refusal number is assigned and a written reason given and sent by fax or email. Goods will then be held for 7 days before disposal. Any query regarding the refusal must be logged during this 7 day period.

Picking or Delivery Errors & Manufacturing Defects must also be reported within 28 days.

TAKING CARE OF YOUR CALYPSO PRODUCTS

By following some simple care and cleaning guidelines, Calypso products can be expected to give many years of pleasurable, trouble-free service.

Calypso bathroom furniture is designed to be used within domestic environments. Adequate ventilation is key. As with all timber products, bathroom furniture will be adversely affected if subject to excessive moisture on the surface or in the atmosphere. It is strongly recommended that a suitable bathroom extractor fan is installed to prevent condensation building up and to prevent damage to the furniture.

Calypso timber based fitted furniture must never be installed in a wet-room situation.

It is most important that any cut or exposed panel edges, and any floor or wall abutment with furniture or sanitaryware, must be sealed with a waterproof sealant such as silicone or similar to avoid the possibility of water ingress and damage.

All water spills and sprays must be wiped clean and mopped dry immediately to prevent water marks or other damage.

Never use chemical or abrasive cleaners, bleach or furniture polishes on any bathroom furniture as the finish can be affected. Clean only with a soft damp cloth and a mild soap solution as necessary.

Solid Oak is a very hard-wearing material and its looks are enhanced with wear over the years. Occasional application of a wax-based furniture polish should be all that is needed to maintain its finish. **DO NOT USE** household cleaners or abrasive powders on oak, and remove any spills or stains immediately with a soft damp cloth and mild detergent (washing-up liquid). Excessive moisture or water spills will darken the oak surface.

CERAMIC SANITARYWARE - Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

BRASSWARE - Clean with a damp cloth, rinse clean and polish with a dry cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

DIMENSIONAL TOLERANCE - Due to the nature of materials and production processes dimensions may vary within a tolerance of $\pm 2\text{mm}$ on furniture, $\pm 3\text{mm}$ on cast basins and $\pm 5\text{mm}$ on ceramic.

COLOUR REPRODUCTION - Colour reproduction is as accurate as possible within the limitations of the printing process. A free sample service is provided if you are unsure about the finish on your selected product. Please call sales on 01432 367 367 to order. Also note, colours will vary under artificial light.

Our company policy is one of continual improvement and development. We therefore reserve the right to alter materials and specifications without notice.

All orders are subject to our standard terms and conditions of sale which can be found at www.calypsobathrooms.co.uk/downloads

A hard copy of our terms and conditions is available on request by calling us on 01432 367 367 or emailing your request to sales@woodstockco.com
